

Mahjong is like a mix of rummy and poker, with novel details of its own & is played with 4 people at a brisk rate

It requires a balance of luck and skill: the luck part keeps it fun (or frustrating), yet plenty of depth on the skill side to keep you busy for years. And we play for points & bragging rights, never for money.

There are a few groups in Durham, Newcastle, and other parts of the North East. We run regular beginners sessions, plus more expert games.

We play several variants, including modern Hong Kong style, Japanese Riichi, Competition Rules (MCR), classic Chinese (via "British rules").
